- KB/Sweden: Peter, Pär

Update on NAS latest tests and developments

Status of the production sites

Netarkivet

- Event harvest of change of regency due to cause Queen Margrethe II abdicates started start January
- 4th Broadcrawl 2023- step 2 - finished just before Christmas holidays
- Still testing on site installation of Browsertrix Cloud as well as using archiveweb.page for hard-to-crawl content.
- New Citrix/VLAN for Netarkivet in production (will be able to replay approx. 70 mio. flashesites) using stand alone Flash Player as well as Firefox add-on (extension)
- Focus on DR archive project in the organisation
- SolrWayback 5.0 bundle has been released soon with lot of bugfixes and improvements.
  - https://github.com/netarchivesuite/solrwayback/releases/tag/5.0.0
  - THIS IS A TEST PRERELEASE! Do not use it yet.
  - https://github.com/netarchivesuite/solrwayback/blob/master/CHANGES.md

BnF

- The Video harvest launched at the end of last year is finished. It covered 96 channels and 24 745 videos for 2.7 TB.
- We are currently carrying out tests to crawl the remainder of the first podcast harvest which took place in 2023. The crawl failed for some podcasts so we are going to relaunch another one to obtain them.
- We also plan to work again on Orange Personal Pages. Around 1500 sites couldn’t be collected because they redirected directly to a new site hosted on another domain. So we would like to complete this collection with these sites excluded from the previous harvest.

ONB

BNE

In February, Galician elections are going to take place; we are working with the regional web curators to cover this event.

At the end of December, the broad crawl of the .cat domain from Catalonia have been finished, we still extract figures and results.

KB-Sweden

Next meetings

- February 6th
- March 5th
- April 2nd
- May 7th
- June 4th
• July 2th
• September 3rd
• October 1st
• November 5th
• December 3rd
• January 7th 2025
