

# FAT 1.8

- **Environment:** Integrationtest.
- **Webclient:** Webclient
- Commandline client
- **Status:** Started 2016.11.10
- Release notes 1.8
- Test setup

| Test                    | Responsible              | Status | Comments |
|-------------------------|--------------------------|--------|----------|
| GetFile tests           | Søren Vejrup Carlsen     | Done   |          |
| PutFile tests           | Søren Vejrup Carlsen     | Done   |          |
| Delete tests            | Jonas Lindberg Frellesen | Done   |          |
| Replace tests           | Jonas Lindberg Frellesen | Done   |          |
| GetFileIDs tests        | Jonas Lindberg Frellesen | Done   |          |
| GetChecksums tests      | Søren Vejrup Carlsen     | Done   |          |
| Integrity Service tests | Kim Christensen          | Done   |          |
| Alarm tests             | Jonas Lindberg Frellesen | Done   |          |
| Audit Trail tests       | Kim Christensen          | Done   |          |
| Status tests            | Kim Christensen          | Done   |          |
| Quickstart test         | Kim Christensen          | Done   |          |

## Komponent versioner

- Reference 1.8 RC services
- Pillars
  - sbtape2 (SB Pillar 2.5)
  - sbdisk1 (SB Pillar 2.5)
  - checksum2 (Reference 1.8 RC)
  - reference2 (Reference 1.8 RC)
  - kbpillar2 (1.3.3-rc1)
- Protocol version: Message-X ML-30

## Uncovered bugs

| T | Key         | P | Summary  | Reporter             |
|---|-------------|---|--|----------------------|
|   | BITMAG-1128 |   | Reference pillar cannot recalculate checksums  | Kim Christensen      |
|   | BITMAG-1136 |   | Collection limitations in permissions is not respected   | Kim Christensen      |
|   | BITMAG-1129 |   | Attempting to send invalid messages kills the client thread with no information in the log or return value | Asger Askov Blekinge |
|   | BITMAG-973  |   | Putfile client should not use -p argument  | Asser Schrøder Femø  |
|   | BITMAG-895  |   | The alarm list in the webgui should contain fileID column  | Mikis Seth Sørensen  |
|   | BITMAG-978  |   | Deletefile. and replacefile commandline clients tells that -p is optional, it isn't                        | Mikis Seth Sørensen  |

6 issues

## Test new functionality

| T | Key         | P | Summary   | Assignee                 | Inspector | Status   |
|---|-------------|---|---|--------------------------|-----------|----------|
|   | BITMAG-1053 |   | Certificates are not validated for expiration             | Unassigned               |           | RESOLVED |
|   | BITMAG-859  |   | Add pagesize to ClientSettings                            | Unassigned               |           | RESOLVED |
|   | BITMAG-1126 |   | Improve the checksum recalculation for reference pillar   | Jonas Lindberg Frellesen |           | CLOSED   |
|   | BITMAG-1116 |   | Optimize integrity services way of detecting missingfiles | Kim Christensen          |           | RESOLVED |
|   | BITMAG-1112 |   | AlarmService gives date input in american format          | Unassigned               |           | RESOLVED |

|             |  |            |          |
|-------------|--|------------|----------|
| BITMAG-1107 | Quickstart.sh should require JAVA_HOME is set                  | Unassigned | RESOLVED |
| BITMAG-1094 | Some bitrepository artifacts does not begin with bitrepository | Unassigned | RESOLVED |
