

SBForge.org ready for business

The SBforge.org site has now been opened to the world. This means that the OS projects which have been running on the internal test server at statsbiblioteket.dk has been migrated to this sbforge.org production server. All the application have been upgraded to the newest versions at the same time.

The following application are still pending migration:

- [Nexus](#)
- [Sonar](#)
- [Hudson](#)
