Danish Netarchive usage

Information of the Danish usage by KB and SB who are responsible for the Danish Web archival.

- Danish Web Archival history — Overview of the web harvesting history in Denmark.
- Freetext search at Netarkivet — Describes the investigation into freetext searching being done at the Danish Netarkivet.dk
- Wayback usage in the Danish webarchive — The Danish Webarchive implementation of wayback has the following primary components.

As the NetarchiveSuite was initially developed by KB and SB, the modules contained in the NAS system reflects the Webarchiving system in operation in DK. This means that all the NetarchiveSuite modules are used as described in the general NAS documentation.
