Here you can find a number of guide for how to best use the SBForge site

Documentation

Documentation and information management best practices

- [Where to put what?](#) — One of the first things you should consider when establishing a new project is where the different kinds of project information should go considering the project tools available.
- [Wiki best practices](#) — Here you can find some tips on how to maintain a efficient wiki.
- [Wiki structure](#) — Here you can find a description of how to structure your project wiki.
