- KB/DK - Aarhus: Colin
- BNE: José, Alicia, Miguel
- KB/Sweden: Peter, Jonas

Update on NAS latest tests and developments

Status of the production sites

Netarkivet

- Awaiting the final Bitmagasinet-issues to be completed, mainly copying of files, before we can start our first full broad harvest since august 2021
- Focus on
 - Danish content on foreign news sites
 - Paywall-sites and IP-validation (we need faster ways to check that IP-validation works)
 - Youtube-content. Still awaiting our Google contact - takes quite a long time to get answers.
 - We'll ingest content for conifer.org, webrecorder etc. and present in SolrWayback to management, then we can hopefully use this as an added semi-manual High fidelity-possibility.
- Trying to finalize Twitter API-harvest pilot project.
- Allans employment prolonged to May 2023

BnF

2022 is also the year of the French presidential elections. So, this month, we will launch a selective crawl dedicated to these elections. These will take place on April, 10 and 24 2022. The "Law, Economics and Politics" and "Philosophy, History and Humanities" collection departments of the BnF are taking part in the selection process.

We have also launched the preparations for the future 2022 Winter Olympic Games harvest. Five collection departments of the BnF will participate in the harvest.

ONB

BNE

A new project, finding Spanish open access online journals that They have disappeared on the internet in order to offer the capture of Web Archive. We want to connect OpenWayback directly to the OPAC of BNE via 856 field of Marc21. That content only will be able to access in the facilities of the BNE in order to respect the Spanish copyright law. Now, We are on the first step, testing connection from catalog BNE to OpenWayback.

KB-Sweden
